

High-performance Signal and Data Processing Workshop

WITS University will be hosting a five-day workshop on High Performance Signal and Data Processing, with a focus on the challenges in astro- and particle physics in radio astronomy implementation. The workshop aims to bring together key people to discuss the challenges facing the signal processing community in radio astronomy, gamma ray astronomy and particle physics, and to provide knowledge sharing to delegates in both a lecture format, as well as a classroom environment for hands-on hardware and software training. General overviews and in-depth presentations will be given. Keynote speakers include SA-CERN chairperson Jean Cleymans, SKA project director

Dr Bernard Fanaroff and MeerKAT associate director of science and engineering, Prof Justin Jonas. The workshop is open to anyone. Today until Friday, Wits Professional Development Hub, 92 Empire Road, Braamfontein

Johannesburg International Mozart Festival

THE sixth annual Johannesburg International Mozart Festival kicked off at the weekend, and until February 9, the City of Gold will come alive with the sound of music. The festivities will see more than 50 performers and ensembles appear in concert in celebration of one of the

greatest composers of all time, as well as other significant composers. On the programme this evening is a song recital featuring tenor Christopher Genz, baritone Reiner Schneider-Waterberg and pianist Cornelia Hermann. The performance will include the works of Benjamin Britten, Howard Ferguson, Franz Schubert, Emmerich Kalman and Felix Mendelssohn Bartholdy. Tickets from R150, 7.30pm, Northward House, Jan Smuts Avenue, Braamfontein
